

[Roadmap For The Merge](#)

AspireRFID Merge / Development Roadmap

- [1 Tasks/Work Assignments](#)

Tasks/Work Assignments

At the Implementation sequence column below we can find what should be done first (especially for the merge). At the Priority column below we can find the task's implementation priority degree from 1 to 9 with 9 defining higher priority.

| C/N | Task Summary | Assigned To | First Version Deadline | Impl. Seq. | Priority (1-->9) |
|-----|--|----------------------|------------------------|------------|------------------|
| 1 | Reader Core Module | | | | |
| 1.1 | Reader Core HAL for TagSys Medio | UJF, AIT | asap | | 3 |
| 1.2 | Reader Core HAL for Tikitag | UJF, AIT | asap | | 3 |
| 1.3 | Reader Core HAL for Bluetooth | UJF | ? | | 3 |
| 1.4 | Reader Core HAL for NFC Phones | UJF, AIT | asap | | 3 |
| 1.5 | Reader Core Authentication/Access mechanisms | AAU,.. | ? | | 5 |
| 1.6 | Standardization for Reader Management (RM) based on JMX | AAU, AIT | ? | | |
| 2 | Filtering & Collection Module | | | | |
| 2.1 | Extension Model for F&C Captured sensor data from semi-passive Tags | UJF, AIT, AAU, INRIA | ? | 2 | 9 |
| 2.2 | Extension Model for F&C Captured sensor data from Sensor Networks | UJF, AIT | asap | 2 | 8 |
| 2.3 | Extension Model for F&C Captured data from actuators | AAU, INRIA, UJF, AIT | ? | | 7 |
| 2.4 | Interface for F&C (or Reader Core) connecting/supporting Active Tags | AAU, INRIA | ? | | 7 |
| 2.5 | Interface for F&C (or Reader Core) connecting/supporting Sensor Networks | UJF, AIT | asap | 2 | 8 |
| 2.6 | Partial implementation of the EPC Writing API for supporting Label generation and printing | | ? | | 4 |
| 2.7 | Integration of TDT to F&C for supporting multiple | INRIA | ? | | 6 |

Aspire Wiki - ObjectWeb - RoadmapForTheMerge

| | | | | | |
|------|---|------------|------|---|--------|
| | types of Tags/Barcodes | | | | |
| 2.8 | Anti-collision protocol for multi-vendor RFID readers reside on middleware | AIT | ? | | 7 |
| 2.9 | Anti-collision protocol for multi-vendor RFID readers reside on Mac layer | INRIA, IT | ? | | 7 |
| 2.10 | Middleware anti-collision solution implementation for multi-vendor RFID readers | AIT | ? | | 7 |
| 2.11 | F&C Bundlization for OSGi deployment within JOnAS Application Server | UJF, AIT | ? | | 2or8 ? |
| 2.12 | Filtering & Collection Authentication/Access mechanisms | AAU,... | ? | | 5 |
| 2.13 | Management and automatic configuration of multiple RFID readers | AIT,? | ? | | 6 |
| 2.14 | Specifications of different kinds of low level filtering | INRIA, UJF | ? | | 7 |
| 2.15 | Design of light ALE modules to be embedded in the readers, customizable based on the application | INRIA | ? | | 7 |
| 2.16 | Implementation of Low Level Filtering ALE interface and integration of it to various RFID readers | INRIA | ? | | 7 |
| 2.17 | DHT-based efficient filtering and memory placement | INRIA | ? | | 7 |
| 2.18 | HAL for TagSys Medio | UJF, AIT | asap | 1 | 9 |
| 2.19 | HAL for Tikitag | UJF, AIT | asap | 1 | 8 |
| 2.20 | HAL for Bluetooth | UJF | ? | 1 | 7 |
| 2.21 | HAL for NFC Phones | UJF, AIT | asap | 1 | 8 |
| 3 | Business Event Generator Module | | | | |
| 3.1 | BEG Interface for connecting/supporting Actuators | | ? | | 6 |
| 3.2 | BEG Interface for connecting/supporting feedback to various devices (e.g. Account machines, delivery Information) | | ? | | 4 |

Aspire Wiki - ObjectWeb - RoadmapForTheMerge

| | | | | | |
|----------|--|-----------------------|------|---|--------|
| | at the gates/handheld devices ...) | | | | |
| 3.3 | BEG Bundlization for OSGi deployment within JOnAS Application Server | UJF, AIT | ? | | 2or8 ? |
| 3.4 | BEG Authentication/Access mechanisms | AAU,... | ? | | 5 |
| 4 | EPCIS Repository Module | | | | |
| 4.1 | EPCIS new Field extensions for the existing Event Types extensions in the Data Definition Layer | UJF, AIT | asap | 3 | 9 |
| 4.2 | EPCIS deployment within JOnAS Application Server | UJF, AIT | ? | | 2or8 ? |
| 4.3 | EPCIS Authentication/Access mechanisms | AAU,... | ? | | 5 |
| 5 | Connector Module | | | | |
| 5.1 | Connector Singular Logic's Enterprise ERP support | AIT | ? | | 4 |
| 5.2 | Connector Microsoft's Dynamics NAV ERP support | | ? | | 3 |
| 5.3 | Connector MyWMS WMS support | | ? | | 3 |
| 5.4 | Connector UJF's Object tracking support | UJF, AIT | asap | 4 | 8 |
| 5.5 | Connector UJF's Supply chain management support | UJF, AIT | asap | 4 | 8 |
| 5.6 | Connector UJF's Sonding Balloon tracking support | UJF | ? | | 3 |
| 5.7 | Connector Bundlization for OSGi deployment within JOnAS Application Server | UJF, AIT | ? | | 2or8 ? |
| 5.8 | Connector Authentication/Access mechanisms | AAU, ... | ? | | 5 |
| 6 | ONS Module | | | | |
| 6.1 | ONS | AAU, AIT,... | ? | | 1 |
| 7 | IDE/Tooling Module | | | | |
| 7.1 | RFID Specification Language | AIT, AAU, UJF, OSI | ? | | 8 |
| 7.2 | Programmable Engine Plug-in | AIT, AAU, UJF, OSI | ? | | 7 |
| 7.3 | Business Process Workflow Management Editor Plug-in | AIT, AAU, UJF | ? | | 7 |
| 7.4 | Concurrent innovation | INRIA, UJF | ? | | 6 |

Aspire Wiki - ObjectWeb - RoadmapForTheMerge

| | | | | | |
|----------|---|------------------------------|---|---|---|
| | engineering framework (as an Eclipse plug-in?) | | | | |
| 7.5 | Connector Configurator Plug-in | AIT,INRIA UJF | ? | | |
| 7.6 | Business Location Designer plug-in | INRIA? (Part of the CIEF?) | ? | | 2 |
| 7.7 | End-to-End management plug-in for all the AspireRFID middleware's modules | AIT, UJF, AAU , OSI | | 5 | 7 |
| 7.8 | Authentication/Access Control Configuration Plug-in | AAU ... | ? | | 5 |
| 7.9 | Authentication/Access Control mechanisms for the AspireRFID IDE | AAU ... | ? | | 5 |
| 8 | TDT Module | | | | |
| 8.1 | TDT extended support | INRIA | ? | | 6 |
| 9 | Packaging Module | | | | |
| 9.1 | Demo Packs for all available demos and Middleware modules | UJF, AIT, AAU , INRIA | ? | | 4 |
| 10.1 | Scemtec Reader Integration | IT, SENSAP,INRIA, ? MELEXIS | ? | | 8 |
| 10.2 | LLRP module Interface | IT, SENSAP,INRIA, ? MELEXIS | ? | | 8 |

At the "Assigned To" column assignments noted with **Bold** are confirmed.
